

## R10 Smart

### FOR THE PERFECTIONIST AND THE DEMANDING

Under a fine, elegant exterior, everything in it has been thought out to propel your productivity to another level. Clever at multi-tasking, it draws its power and speed from a latest generation quad core processor.

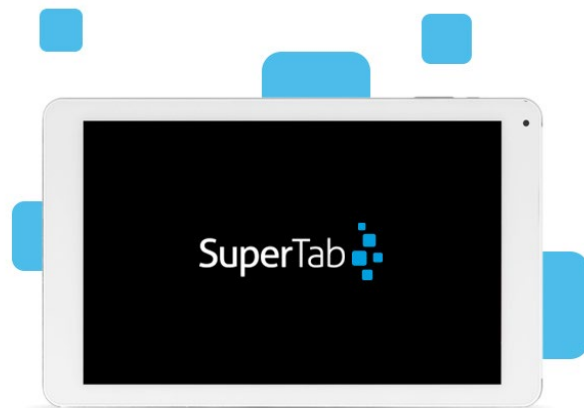

The greatest thing in the R10-3G is its extra wide, richly coloured IPS screen. The best for watching HD films or playing complex games. With 16 GB storage and Wi-Fi + 3G connectivity you will never lack content, wherever you are.

10"   
 1280x800 IPS
